Statement of local protocols and requirements Message from USA Swimming:

We believe swimming, like walking, hiking, running, and cycling, is a critical healthy activity within our communities. Swimming does not require direct contact between teammates or coaches and social distancing can be maintained throughout practice. As with all exercise and activity at this time, swimming must comply with standards for social distancing and safety within aquatic facilities. We know, with collaboration between USA Swimming coaches, public health officials, and facility operators we can create safe plans for using aquatic facilities to promote physical and mental health opportunities compliant with public health directives.

The CDC has indicated that there is no evidence the disease spreads through treated water. Proper operation and maintenance (including disinfection with chlorine and bromine) of these facilities should inactivate the virus in the water.
